*by Gwen Jones*

If you ever wondered about tomorrow, about what is happening now to this planet Earth, or about how the future may differ from today, this book is for you. In its pages you will find a description of the times you are living in – from the vantage point of 500 years beyond.

Humanity is passing through the severest test of its entire lifetime on Earth. It is the ultimate test of evolutionary fitness for survival.

The defining attribute of homo sapiens was the ego. It bought forth extraordinary developments during its tenure. But its time is over. This experiment of evolution has come to an end.

***Enter into the adventure yourself.*** Go into the Letters and appreciate what is being delivered.

“This book is a gift from our future. It gives us hope. Hope for a cleaner environment. Hope for a more connected and inclusive society.

***Hope for a future.*** It may well be the answer to and the explanation of, what we are experiencing now.”
